

WINGS OF REFUGE

Wings of Refuge is a Christ-centered organization that provides opportunities for healing and restoration to survivors of sex trafficking and sexual exploitation.

We do this by providing a long-term restorative safe home, meaningful work through a social enterprise, and transitional housing. Even after a woman has escaped her trafficking situation, there is often a gap between her exploitation and living in true freedom and that gap can feel overwhelming. She needs a safe place where she can recover from the trauma and find a fresh start. Wings of Refuge bridges the gap to freedom and proceeds from this festive event supports the ministry so exploitation ends for one more girl!

1. Zalesak/Kammin Home, 1568 Quill Ave
2. Bacon Home, 1387 Quill Ave
3. Pearson Home, 1716 SE Linn St
4. Palmer Home, 2020 SE Linn St
5. Stumbo Home, 120 SE 3rd, Ogden
6. Anderson Home, 214 W Division, Ogden
7. Bottled Bliss, 705 Keeler, Boone

Plan to stop by
Bottled Bliss at 705 Keeler
in Boone for complimentary refreshments and purchase a candle that sex trafficking survivors have made as a part of their restoration.

Thanks for your support!

Special thanks to IHSAA for donating all printed materials for this event!

The Zalesak/Kammin Family

1568 Quill Ave

An old farmhouse is a treasure of the past and represents hope for future generations. This house was built on a working farm in 1913. As years pass and ownership changes, chapters end and new begin. In September 2021, we entered a new chapter and broke ground on an addition and whole home remodel. Our vision was to pay homage to the original home while making it a more modern and useful space. Keeping with the traditional farmhouse style, we added a large front porch and a covered patio. The porch swing overlooking the pond and pasture is one of our favorite features. We welcome you into our home and wish you a joyous holiday season.

The Pearson Family

1716 SE Linn

We built our traditional two story home in 1989. At the time, we were a busy family of 7 so we knew we needed a space that would serve as a comfortable home base for our 5 kids, their friends, and our large extended families. Even now that our kids have moved out, we still find our house fully occupied on many weekends when the grandkids come to visit—those are the times that not only our house is full, but so are our hearts. Our favorite features of the house include the open two story stairway and the large sunroom, which was added in 2000 so we could fully enjoy our large in-town lot. With its backyard marshy area and the many fruit trees, the yard is really the stand out feature that makes the house feel extra special to us. Our home has served as a backdrop for numerous wonderful memories, especially around Christmas time, and we are certain the 2023 Tour of Homes will be added to that list. We are looking forward to having you!

The Bacon Family

1387 Quill Ave

Our home sits on almost 16 acres south of Highway 30. We started building our house in June 2020 and moved in with it partially finished in April 2021. A good friend designed our home putting our ideas with his. We love the simplicity of the open floor plan. Our favorite part of our home is the large windows & country setting giving us views of nature, wildlife, & sunsets.

The Stumbo Family

120 SE 3rd, Ogden

In 1983, while looking for a location to open a preschool, we were able to purchase the vacant Mission Covenant Church building in Ogden. The lower level was renovated and in September 1984 the first children attended Mulberry Street preschool. The upstairs was converted into our home by February 1985. In our home, you will find several antique pieces collected over the years, as well as original features from the church building. Since Deb's retirement and new quilting hobby, many quilts have also been added to the decor. The lower-level was later remodeled into a 50-60's style family rec room, complete with a jukebox, pinball machines and soda fountain. On display during the Tour of Homes, will be pictures, old newspaper clippings and some artifacts pertaining to the Swedish Evangelical Mission Church from 1882-1980.

The Palmer Family

2020 SE Linn

Our home was built in 1997 by the Price men, a father and son home construction business. While there have been other owners through it's 26 years our family moved into this home in the summer of 2022. We immediately fell in love with the space and capabilities of sharing it with others over meals and kids playing. We also love the quiet country feel with a neighborhood but still right in the city of Boone.

The Anderson Family

214 W Division, Ogden

This 2-story Victorian home was built in 1902. Its exterior features gingerbread, sunburst motif, spindles, and metal roof finial. The interior is highlighted with original stained and leaded glass windows, hardwood floors, and ornate woodwork. As best as can be identified, three families have made this house their home since 1902, including Margaret Wright, an organist at Immanuel Lutheran Church who conducted choir practice in this home. The Anderson's purchased the home in 1986 and have raised three children in the Ogden School District. They have added on to the home two times, always trying to maintain the charm of the Victorian era along with some modern touches. Come and explore--enjoy all the vintage holiday decorations!
