**Press Release**

**For Immediate Release**

**Boone, IA** - Iowa has been on the rise in human trafficking! Our stats come from Iowa state detectives, directors of safe houses, as well as our legislators. *Team Iowa* has made educating the masses a priority initiative to combat human trafficking by raising awareness and breaking the naïve mold we tend to have as Iowans. With the help of the film documentary called *Gridshock*, it has opened the eyes and willingness of citizens in our communities to step up in helping to make a difference.

Be sure to attend this important program at the James H. Andrew Railroad Museum at the Boone and Scenic Valley Railroad **Thursday, January 18<sup>th</sup> at 7 pm** and learn how you can make that difference. Questions call 800-626-0319.
